BCSE429P

Cyber Physical Systems Design Lab

Laboratory 3 - Synchronous Data Flow (SDF) using Ptolemy II

Name: Aman Kumar Singh

Reg. No.: 23BPS1011

Question:

Install Ptolemy II if not already installed. To install this, you need the Java Runtime Environment; install that as well.

Once installed, try the following practice problems. In each of cases (Figures from the book) 3.1, 3.5, and 3.6, you can plot the spectrum, entropy, and the normal sinusoidal waveform.

(In the Ptolemy II Book, which is attached to this Course)

In Figure 3.7, construct the output 0,2,4,6... 20 and 3,6,9... 21

FIGURE 3.1
SPECTRUM

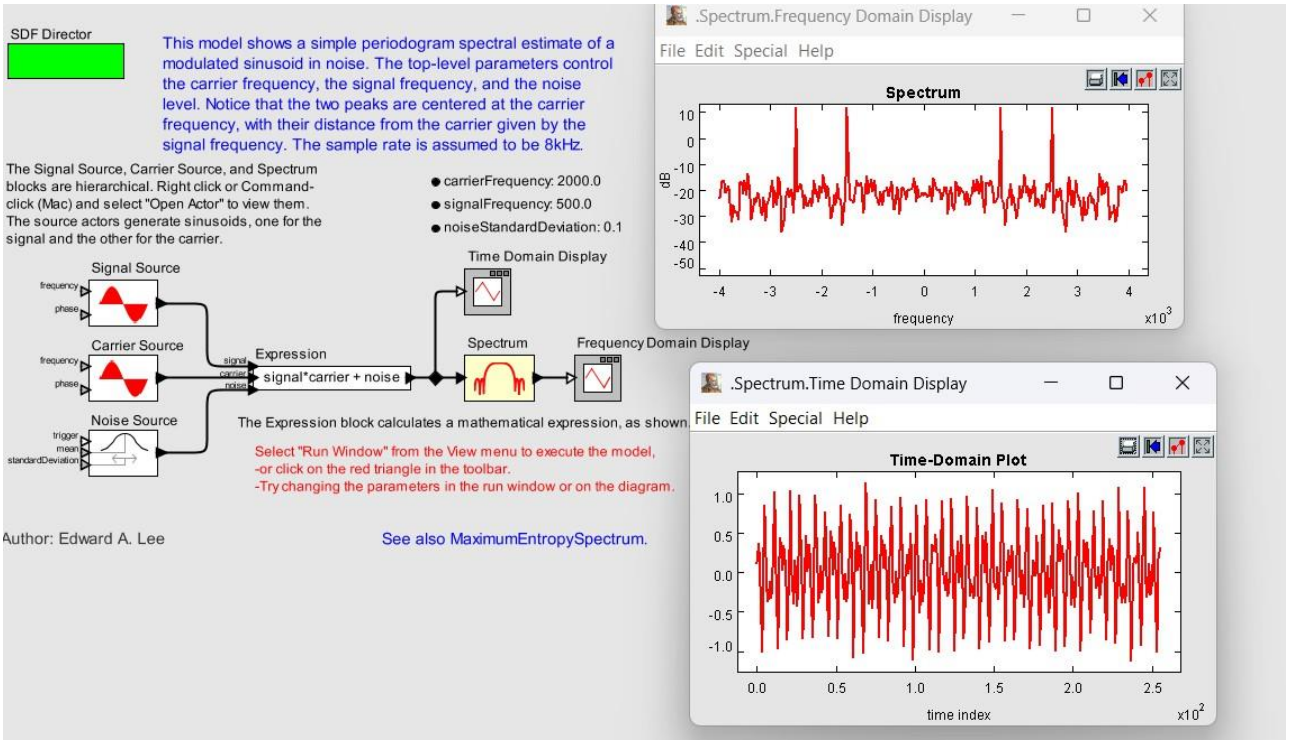

FIGURE 3.5 - SOUND SPECTRUM

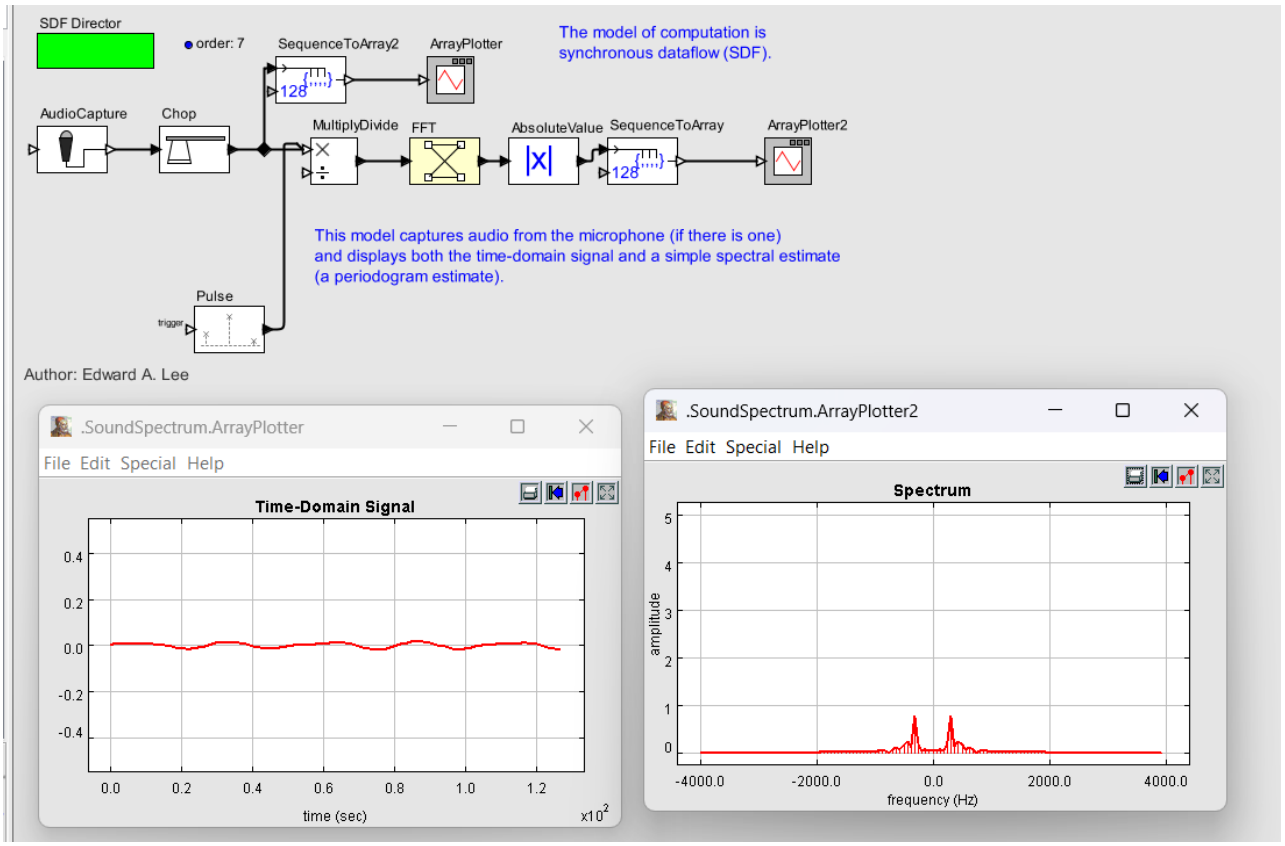

FIGURE 3.6 - MAXIMUM ENTROPY SPECTRUM

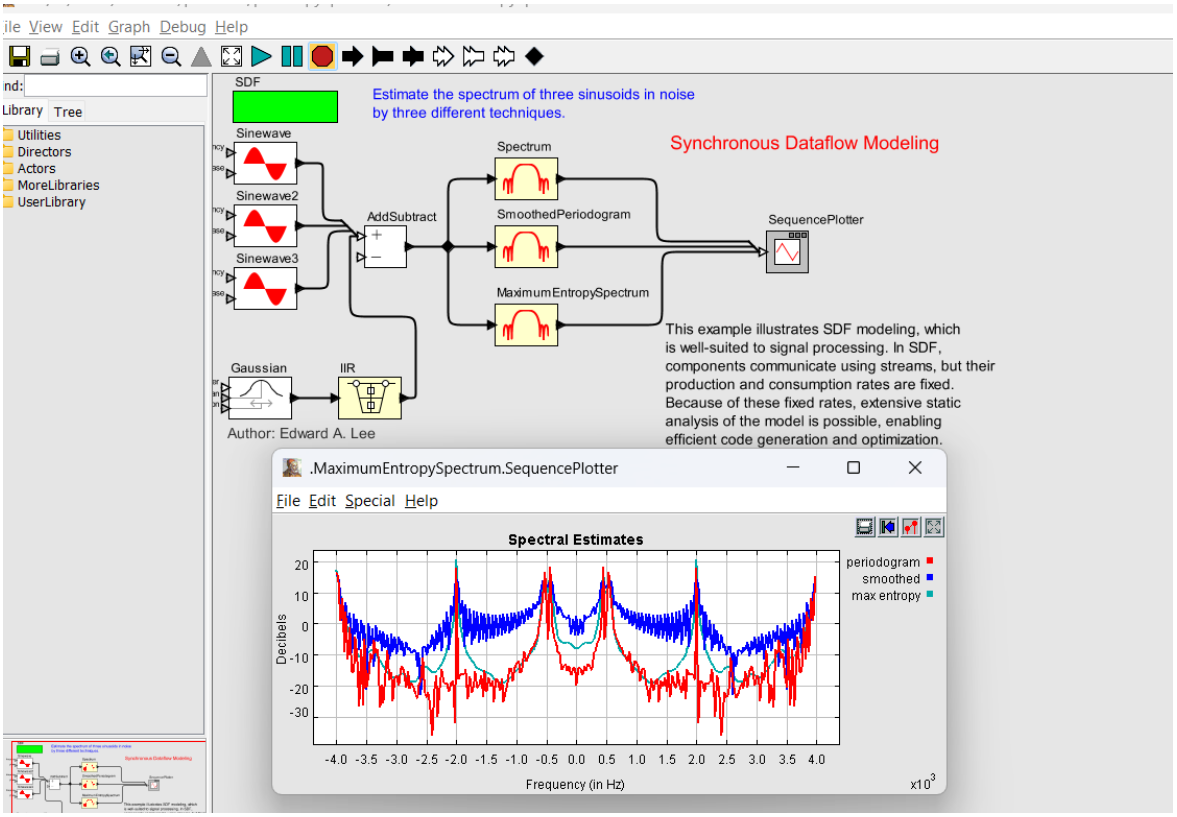

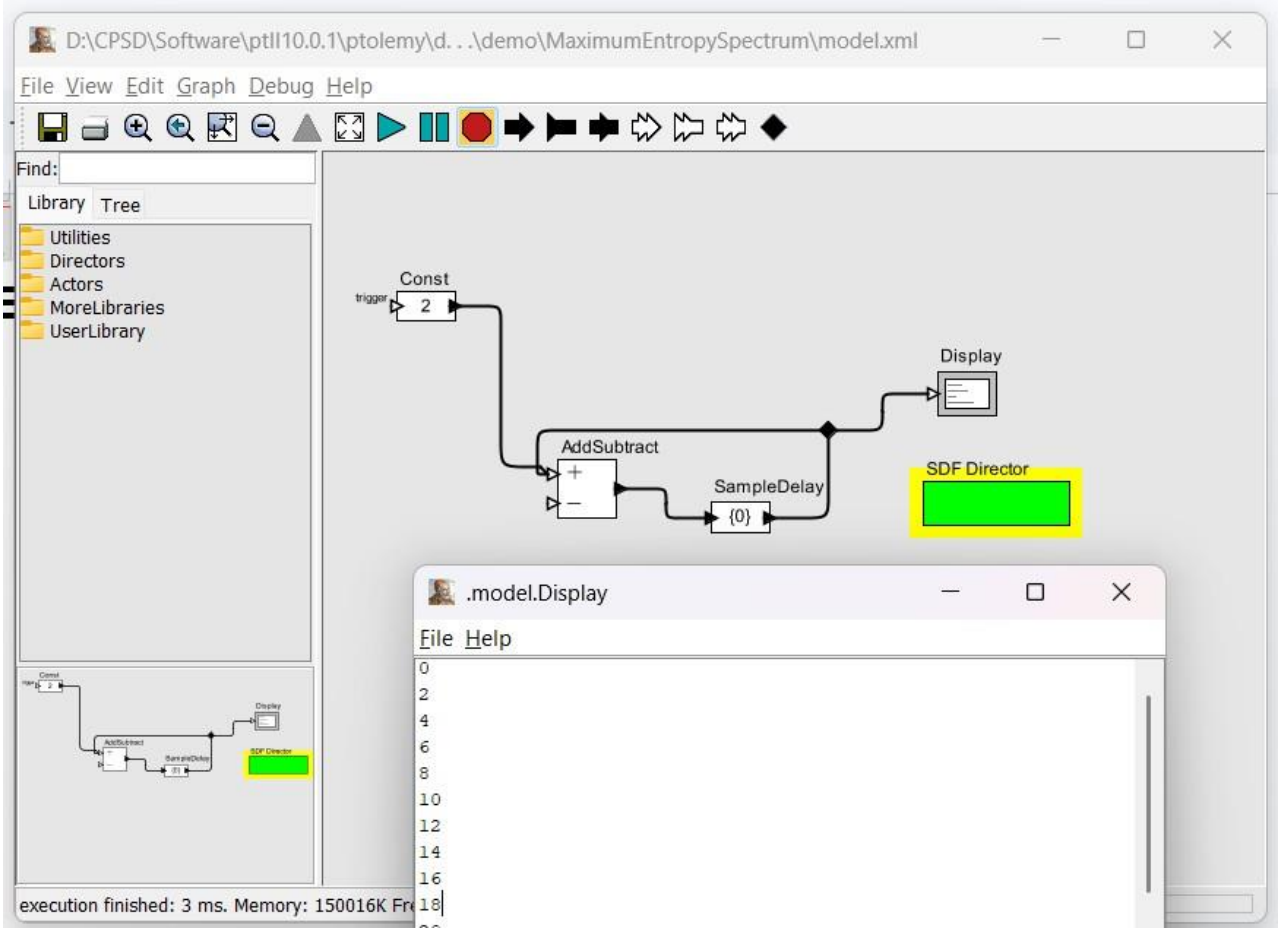

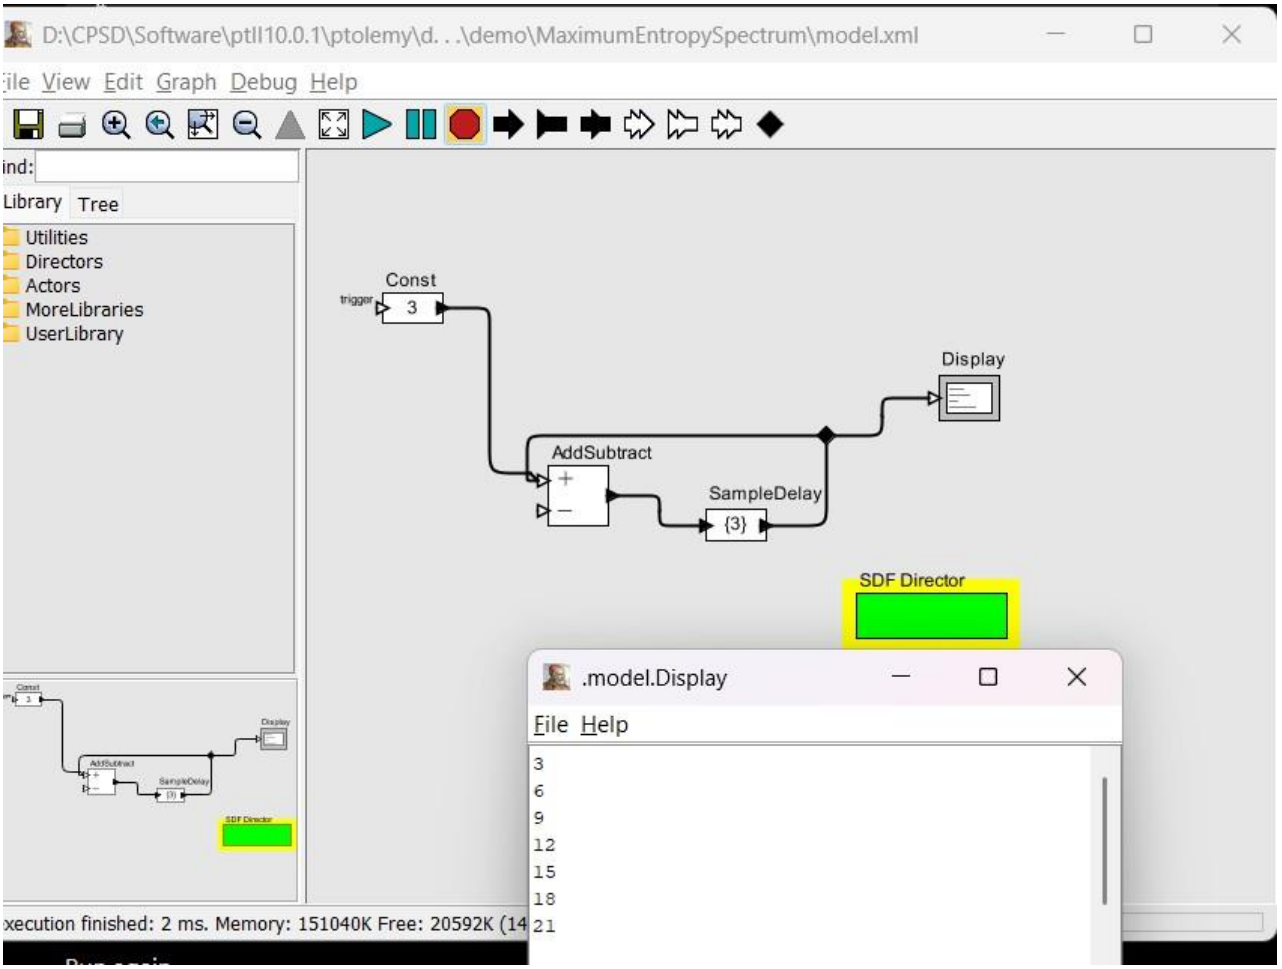

FIGURE 3.7 (0,2…20)

(3,6,9….21)
